

Motorola National Radio Rental Program

Meet Your Communication Needs with Affordable Rental Solutions for Public Safety, Government, Utilities, Construction, Transportation, Manufacturing and Special Events.

The Motorola National Radio Rental Program gives you the flexibility to enjoy quality communication whenever capital expenditures aren't possible. You can select from a complete range of available products and accessories, in most technologies, to fit any requirement. And you can be assured of attentive service that makes it easy to do business with Motorola ... here's why.

10 Great Reasons To Choose Motorola Radio Rental...

Ideal Interim Solution.

Renting is a wise choice during a technology migration, for product evaluation before purchasing, or when there are sudden spikes in activity.

Reliable Tool.

Motorola rental equipment can help you run your operation more smoothly and safely.

Maximum Confidence.

There's no better choice than Motorola for quality and performance.

Reasonable Rental Rates.

Motorola rental is priced to help you stay within your budget.

Fast Response.

In most cases, your equipment can be shipped to its destination the same day.

Knowledgeable Assistance.

Motorola Radio Rental professionals can customize a rental solution for your exact needs.

Flexible Choices.

A wide inventory selection of both pre-programmed and non-programmed equipment is available.

Coverage Options.

Choose "Wide Area" or "On Site", for commercial carrier or private system use.

You Select The Rental Term.

Equipment is available weekly, monthly or for as long as is required.

Easy Shipping.

Rentals include overnight shipping, packaging and return labels.

“ONLY the Motorola Rental Team
can do the job right.”

“During the past 20+ years of planning the communications for major events the one constant in my business has been solid support and professionalism exhibited by Motorola Rental. In each and every case, the equipment arrived on time, properly programmed and working perfectly. If everything in life worked as well as the Motorola Team, business would be much, much easier. Motorola rental has been my vendor of choice because of its dedication to always being at the leading edge of technology. The term ‘one stop’ shopping solution applies to the Motorola team due to their ability to produce every level of technology necessary to successfully complete any event. Their ‘sudden service’ capabilities have made the difference.”

Rental Equipment for All Types of Applications

From an interim solution for a sudden spike in activity to technology migrations, from emergency response to crowd control, count on Motorola to put together just the right rental packages. For maximum flexibility, equipment terms are available for as few as seven days or as long as required. All rentals include overnight shipping, packaging and labels for easy return. We continually maintain a wide inventory selection, including intrinsically safe models, as newer technologies are introduced. VHF, UHF, 800MHz, 900MHz and iDEN® digital technologies are available, with a wide range of compatible accessories including IMPRES batteries and chargers.

Products subject to availability. Seven day minimum on all rentals.
